11. Opinions accompanied by an open mind

Please keep in mind that Greenspire students study outside every single day with just two exceptions: when temperatures dip below zero or when lightning is present. Dressing appropriately for the weather is essential to avoiding educational disruptions and delays.

Because our activities may result in wet socks, pants or shirts, we highly recommend that each student keep a spare set in his/her locker at all times. We hate to lose instructional time due to clothing needs. Please make a weekly habit of checking in on the status of these extra clothes.

Lastly, the importance of labeling clothing and boots cannot be overstated. Each year we donate thousands of dollars' worth of unclaimed lost and found items to charity. Names written inside boots, coats, gloves and lunch boxes would diminish this phenomenon significantly.

Thank you!
