

The Academic Week Ahead
Jan. 11 – Jan. 14, 2021

English Language Arts

[Phil Girard](#)

The Memoir Essay that students have been working on is due on Friday, the 15th. The Rubric is located alongside their document in Google Classroom (under Week 15). Students will continue working on this essay, seeking out one-on-one appointments with me as necessary. Students must email me available times to meet.

Literature

[Claire Alexander](#)

Students will be continuing with the themes from our memoirs, specifically focusing on positive memories from 2020. In the next two weeks, we will be creating slides that show personal, local, national, and international improvements that happened because of events in 2020. Students should continue to read each day at home.

Social Studies

[Kelly Francisco](#)

This week students will begin creating the final product for our Early Human Project. Students will choose to either create a digital picture book or a tv commercial. Their final product will showcase a non stereotypical portrayal of an early human. The Human Element Project Centers located on Google Classroom will be due by this Friday, the 15th.

Science

[Kris Galoci](#)

This week students will examine different anatomical evidence for evolution before using that information to investigate the anatomical similarities in fossil hominids. They will continue to engage in inquiry-based activities during live classes which require them to examine evidence, make observations and then use scientific reasoning to formulate hypotheses about how the evidence supports the claims being made.

PE/Health

[Katie Tomczyk](#)

Students will be making "Tobacco-free Cartoons" as part of their last health assignment for the semester. They will choose between two tobacco-related topics and need to submit their final assignment prior to the last day of the semester (Jan 22nd). It is my hope that students are participating in PE twice a week and/or participating in movement activities outside of class.

Math Guass (Tejas)

[Tejas Mehta](#)

This week students will review all of the topics covered in the first semester, to fill in any gaps and to prepare for a mixed topic final exam. Please make sure your student has caught up on previous assignments from CK-12 and Khan Academy.

Math Euclid (Emily)

[Emily Feaster](#)

This week, students will be learning about angles and how to solve for missing angles. All assignments have been graded. Please check for any missing work. The last day to submit work for the quarter will be next Wednesday.

Algebra

[Emily Feaster](#)

Students will be reviewing Chapters 1-3 this week and will have a test on Friday. If there are any questions, please email Emily to set up a time to meet one-on-one.

World Language

[Marina Call](#)

Student group work about celebrations and traditions is due on Tuesday. We will continue practice on family vocabulary and do an exercise with listening and writing during our Zoom Lesson.
