Can you provide lunch each school day?	Yes	No
Do you understand and embrace that your child will be engaging in outdoor education and exploration 90 minutes or more per day – rain, snow and shine?	Yes	No

**Pathways at GHS.** When students enter GHS, they will experience a year exploring our curricular pathways through a variety of angles. This required Exploratory Seminar course plays a big role in shaping the GHS high school experience. The first year of study emphasizes our four endorsement pathways. The four pathways are: Freshwater Studies, Agri-Science, Architecture & Engineering, and Community Leadership. Students may change pathway selections throughout their four years, if desired. However, it is recommended to select a pathway and remain in that course of study during their time at GHS.

**I understand that my student will select a learning pathway at GHS (initial) \_\_\_\_\_**

**Project Based Learning at GHS:** Project-Based Learning (PBL) emphasizes hands-on, inquiry-based learning experiences and collaboration with community partners. Research shows PBL fosters substantial learning gains, a supportive school culture, and the connection between study and the real world. Projects are cross-curricular and presented as real-world problems that include state standards.

**I understand that my student will participate in Project Based Learning at GHS (initial) \_\_\_\_\_**

Parent: Guardian Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Method of Delivery to Greenspire High School: Email/Electronic\*      US Mail      Hand-Delivered

Approximate Date and Time of Delivery: \_\_\_\_\_

\* Email applications should be submitted to [hsoffice@greenspireschool.org](mailto:hsoffice@greenspireschool.org)

Inaccurate or incomplete applications may be discarded. Hand-delivered applications will not be accepted from students.
