

Session One

Attempting Art for Amateurs and Artists Alike

06/26/2023 - 06/29/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 10-13

Have you ever thrown darts at balloons filled with paint? Made a hat out of duct tape? Made your own necklace keychains? This session will involve all of these arts and more! All ability levels are welcome, and please know your art pieces will be enjoyed no matter what they look like. Session is both indoors and outdoors.

Kick It at Greenspire

06/26/2023 - 06/29/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 11-14

This is an introductory soccer camp helping to show participants the basics of the sport. Participants will focus on skills like agility, passing, communication and the different positions on the field. Activities will include drills, team building, runs on the trails, and small sided games on the field along with a final tournament on the last day. Session is primarily outdoors.

Reading Crusaders

06/26/2023 - 06/29/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-13

Grab your pillow! Grab your blanket! Bring a lunch and a snack! We will provide the books. Do you love relaxing while reading books? Do you enjoy a little friendly competition? Can you get lost in reading for hours? If so, please join us for a four-day reading marathon, activities, and competition. Session is both indoors and outdoors.

The Digital Playground

06/26/2023 - 06/29/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 11-14

Join us for an engaging and exploratory tech experience that will include introductions to coding and app development tools, 3D design and printing tools, and Finch Robotics (programming, not building). This is an opportunity for students to experience and play with a variety of programming tools in a creative and non-competitive environment. No previous experience is necessary to participate in any of the activities, which can be modified for more advanced participants. Session is primarily indoors.

Session Two

Greenspire Intelligence Agency: Spy Training Adventure

07/10/2023 - 07/13/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-13

Learn the art of the undercover agent: camouflaging in plain sight, identifying friends and foe, solving mysteries and maybe even saving the world! Our week will focus on things like natural camouflaging, team building activities, unstructured play in the outdoors, cataloguing wild plants and animals, organized team games and having fun in the forest. This will all culminate in becoming a bona fide Undercover Agent from the G.I.A. (Greenspire Intelligence Agency). Session is primarily outdoors.

Perfecting the Picnic

07/10/2023 - 07/13/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-13

Consider these questions: Where can we go to have the best picnic? What will we bring? What do we do when we get there? Let's make an adventure out of lunch each day, and maybe make some snacks to bring along with us! Session is primarily outdoors.

Underwater Innovators I & II

07/10/2023 - 07/13/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 12-14

Teams of participants will design and construct underwater remotely operated vehicles (UROV's) with the goal of completing an underwater challenge. New this year, students will have opportunities to participate in beginning or advanced construction using a variety of tools to safety design and build everything from frame and propulsion systems to payload, navigation, and monitoring equipment. The week will culminate with a deployment of their robots in a nearby body of water. Previous experience in building and operating UROV's is not required. Session is both indoors and outdoors.

Session Three

Nature Craft: An Outdoor Art Studio Experience

07/17/2023 - 07/20/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-18

We will be exploring the forests of the Commons and creating art out of things that are all around us that we have never seen a use for otherwise. Paint a new pet rock into life, create something to hang on your wall, find wildflowers to press into bookmarks, or enjoy creating an entire gnome village for our forest friends! The possibilities are endless when we have nature's bounty at our fingertips! Session is both indoors and outdoors.

Reverse Engineering (Junior) - Learning Through Disassembly

07/17/2023 - 07/20/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-11

This STEM concept course teaches students "How Things Work" by disassembling broken or obsolete household items. Starting with basic safety concepts, students are taught how to use common household tools (screwdrivers, wrenches, pliers, etc...). Using tools in a safe manner, students will "unbuild" or disassemble broken or obsolete household items to their smallest components. Each student will work in a supervised manner either independently or in small groups. Household items will range in size from kitchen appliances to cellular phones. Disassembly of various items will provide opportunities to learn more about motors, microchips, manufacturing methodologies and more! Session is primarily indoors.

The Extreme Side of Writing

07/17/2023 - 07/20/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 14-18

These Creative Writing tasks are unlike anything you have experienced before! Get ready to reach deeper, think broader, break barriers with your writing. There will be challenges galore, idea generators you have not seen, and helpful feedback that you need! You will be able to come away from this session with more successful writing than ever before. Session is primarily indoors.

Session Four

Art in Nature

07/24/2023 - 07/27/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 11-18

Collecting, creating and constructing with nature! This camp combines our love of nature with our love of art. We will be creating and using natural dyes and paints, making sun prints, building our nature journals, and so much more. Session is primarily outdoors.

Exploring Ancient Earth

07/24/2023 - 07/27/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 10-12

Ever wonder what the world was like when dinosaurs roamed? You will get to explore the land and oceans as they changed over millions of years, sculpting the world we know today. There will be videos, art, projects, games and even experiments to help us discover more about the prehistoric landscape and its inhabitants. Session is both indoors and outdoors.

Let's Go Fly a Kite

07/24/2023 - 07/27/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 10-13

Weather, aerodynamics and physics will only be some of the concepts that we will get to know better by creating an essential part of a summer day: kites! We will practice the best building techniques, fail and try again, and fly up to the highest heights. Let's see if we can create a kite that you can enjoy for the rest of the summer. Session is both indoors and outdoors.

Session Five

Creative Arts Camp

07/31/2023 - 08/03/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-15

Art all ways! Students ages 9-15 will be able to showcase their creativity in a variety of ways. This session will focus on Improv, theater, creative writing, drawing, painting, and more. Help your child retain their reading and writing skills in a fun and engaging environment. Session is both indoors and outdoors.

Foraging NoMI

07/31/2023 - 08/03/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-16

Come join us for a late summer harvest in the Commons! We will be using Greenspire permaculture, garden offerings, and the foraged goods of the forest to create simple snacks and preserved foods for the week to take home and share with family and friends! Session is primarily outdoors.

The Happy Campers

07/31/2023 - 08/03/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-13

Join us for a variety of adventures and activities. Tie dye? Snack making? Hiking Trips? Crafts? You name it, we got it! The goal is to bring back the good 'ole days and have our campers leaving happier than when they arrived! Session is both indoors and outdoors.

Session Six

Let's Build a Boat to Float

08/07/2023 - 08/10/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 11-18

Let's work our creative and scientific muscles by working on teams to design a cardboard boat to float in West Bay! We are using only three materials to make this water craft; cardboard, cardboard and more cardboard. Come with buoyancy, beauty and boats on the brain! Session is primarily outdoors.

Reverse Engineering - Learning Through Disassembly

08/07/2023 - 08/10/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 12-15

This STEM concept course teaches students "How Things Work" by disassembling broken or obsolete household items. Starting with basic safety concepts, students are taught how to use common household tools (screwdrivers, wrenches, pliers, etc...). Using tools in a safe manner, students will "unbuild" or disassemble broken or obsolete household items to their smallest components. Each student will work in a supervised manner either independently or in small groups. Household items will range in size from kitchen appliances to cellular phones. Disassembly of various items will provide opportunities to learn more about motors, microchips, manufacturing methodologies and more! Session is primarily indoors.

World Tour

08/07/2023 - 08/10/2023 M - TH, 9:00 AM - 3:00 PM

Middle School Campus

Ages 9-14

Explore the world through food, games, crafts, music and more. This camp is dedicated to celebrating and expanding our knowledge of many unique cultures around the world. Through hands on multi-sensory experiences and play, students will be encouraged to develop an appreciation of cultures different from their own and gain a global perspective. Session is both indoors and outdoors.
